

## BEFORE LEAVING THE SCENE OF AN ACCIDENT

- Be sure to get the name of the responding officer. You may need it to follow up for your accident report.
- Take pictures of all vehicle(s) involved and the surrounding areas. Remember, weather can play a part in the aftermath. Document all surrounding circumstances.
- Ensure you receive the contact information of the other driver(s) involved and any witnesses.
- Remember to acquire the insurance information of all parties involved.
- Seek medical attention immediately. A small ache after an accident may be indicative of a larger underlying issue.
- Contact the attorneys of Odegaard Kovacich Snipes immediately. The insurance companies involved will get to work immediately to deny claims. Do not let them get ahead of you.
